

QSport MATRIX - INDOOR SPORT

Indoor Sport -							
SPORT	Training space Stage 2 Competition Stage 3 and managing communal spaces	Total # participants -	# of Spectators and essential persons - How are they managed marshalling spacing etc.	Hygiene Measures	How overlap eliminated	Record keeping mention	Comments
<p><b>Key points - consistent across Sports</b></p>	<p><i>Size of Playing space -varied with Indoor sports operating from commercial centres, community halls, schools and some from dedicated sport clubs. All have indicate. Management of spaces utilising social distancing and complying with current Health directives provided. All indoor sports have inputted via teleconferencing, email and one on one calls within the Indoor group and with their Boards and committees. Once approved further education is required to pass the approved operational guides down to grassroots volunteers. Some larger Indoor Centres will be modifying their sport to participate in stage 2. Most Indoor sports are totally driven by volunteers and have completed these guides pressed by time however have indicated their sport specific plan will be ready by the time their sport is actionable in Stage 2 or Stage 3. Input to this matrix not available. It requested from contact sports in stage 3 that distance requirements is eased to allow competition to resume with social distancing observed outside play areas.</i></p>	<p><i>Indoor Sports that have little detail in this space have indicated they will comply with the minimum participants allowed and have not submitted reasons to increase numbers for sport specific reasons.</i></p>	<p><i>Those Indoor sport operating in commercial or community venues have indicated venue staff are integral to this plan to return to sport and excluded from the participation count (essential persons to the businesses). In most cases as indicated in each sports plan the owners of the venues are monitoring the social distancing, closing meeting points, excluding spectators, managing entry and exit points and managing workplace health and safety issues for their staff. Sport volunteers working alongside to ensure their sport specific area meets the requirements to keep their members covid safe, managing head count and distance requirements for each stage of return to play.</i></p>	<p>Hygiene protocols distributed by national/state sporting body will be adopted by organisation including:                      -Availability of hand sanitiser at entry/exit points to venue and elsewhere (may be provided by facility/venue manager)                      -Protocols for sanitising stations, sanitising shared equipment                      Cleaning standards – increase regular cleans and frequent wiping of high touch surfaces.                      –Displaying posters outlining relevant personal hygiene guidance.                      –Avoiding shared use of equipment.                      –Provide suitable rubbish bins with regular waste disposal.                      –Guidelines for sanitisation and cleaning of Organisation facilities. A COVID Safe Coordinator or Bio Hazard Officer is allocated to each session to take responsibility of completing the cleaning requirements before the next group arrives. - Each sport indicated a routine and monitored schedule of cleaning all frequently touched surfaces particular to their zone. The Hygiene measures overseen by a Covid-safe or Bio-hazard Officer for the sport for each schedule of players and support personnel. Change rooms and Showers are to remain closed. (<a href="https://www.safeworkaustralia.gov.au/covid-19-information-workplaces/industry-information/general">https://www.safeworkaustralia.gov.au/covid-19-information-workplaces/industry-information/general</a>-</p>	<p><b>Each sport has engaged a strategy of providing guidelines required to venue staff or volunteers to supervise all Entry and Exit points to eliminate gatherings - the number of persons and the booking methods employed gove - e.g. multiple zones timelines staggered - Groups/zones separated - describe how choke and gathering points are managed</b></p>	<p><i>Individuals name, contact number - length of time captured - system used - sign in/out sheets and timeline of activity and separation of roles of volunteers monitoring at entry or venue staff recording participants coach takes role or others indicated in sport specific Covid safe plans.</i></p>	<p><i>Where possible the Indoor Sport officials oversee the activity of sport operating in a variety of premises. Some Indoor sports are not in charge of the environment they operate in and will make the necessary checks and measures to keep their participants safe in their zone. In some cases providing the venue operators with guides as conditions of their involvement at the premises and in others not participating until the sport is in control of the numbers of participants and essential persons return at a stage of return to play they are comfortable with. Some larger sports finding it not viable to operate at all until Stage 3 at the earliest. Those sports without detail in this matrix will have their covid safe plan in place prior to returning to sport and within the participants limits advertised at each stage.</i></p>
<p><b>Aus. Karate Federation of Queensland</b></p>	<p>Stage 3 return to Play planned</p>						
<p><b>Aus.Taekwondo Queensland</b></p>	<p>• <b>Size of playing space</b> - 20m x 30m on average, however some can be as small as 10m x 20m. We have part time centres that use school halls / community halls / PCYC centre's of an afternoon and Full time centre's that run multiple sessions through out the day in rented / owned commercial premises.</p>	<p>• <b>Total # of participants</b> - This can range be between 1 - 30 excluding the instructors.                      • <b># participants per playing space/zone</b> - In most cases the class would be split after a warm up into 2 - 3 groups occupying the same play space. -. <i>It is our recommendation that the Instructors be treated as essential persons and excluded as the majority of our Instructors are Club owner / operators. Without the Instructors, there are no classes which by definition means they are essential.</i></p>	<p>All centre's have designated seating for Parents / siblings. Normally it is only one Parent / Carer per child participant.</p>	<p>All Taekwondo centre's are set up as individual Businesses so they will supply their own sanitisers and are currently following the recommendations from the government and our National body in relation to social distancing. Some have even gone as far as temperature checking on arrival.</p>	<p>Part time centre's will normally only run the one afternoon session ranging from 1 hour to 1 and a half hour's. Full time centre's normally have a 30min change over between classes and will use the same entry and exits.</p>	<p>Full times centre's normally have a reception desk where the participant gets their name marked off and / or pay. Part time centre are much the same with out the manned reception desk</p>	<p>As Australian Taekwondo Queensland is not a sports governing body (we are a State sporting organisation) we can only make recommendations to our members in line with our National Body and government regulations.</p>

<p><b>Basketball Queensland</b></p>	<p>A basketball court is 28m X 15m with a 2m run-off around the court. Stadium varied in size from one court (generally school halls to 15 courts (Carrara Indoor Sports facility). Most usable stadiums would be 3 to 5 courts.</p>	<ul style="list-style-type: none"> <li>•12 participants per court if the courts side by side. This would apply to groups of courts in separate areas of the stadium where the areas are divided by a permanent wall or removable barrier such as a drop-down curtain at least 1.8m high.</li> <li>•For single courts separated by a permanent wall, removable barrier such as a drop-down curtain at least 1.8m high or in a separate area within the stadium the maximum is 20 per court.</li> <li>•Staff required to manage the stadium are in addition these numbers in Stage 2.</li> </ul>	<p>Parents/Carers/Spectators may only be present during Stage 2 if the total number of participants does not exceed the maximum permissible under the COVID Safe Plan.</p>	<ul style="list-style-type: none"> <li>•Participants to bring their own basketballs and must sanitised prior to use – signs to be provided and displayed to demonstrate how to do this.</li> <li>•Participants encouraged to bring to and use a personal towel and drink bottle during games to minimise bodily fluids on the court/ game equipment and reduce the amount of person-to-person transfer of bodily fluids.</li> <li>•All transactions to be cash free</li> <li>•Non-Essential services - changerooms, referee rooms, canteens, public water fountains, general seating areas must remain closed or roped off to the general public in accordance with the relevant <b>Stage</b>.</li> </ul>	<ul style="list-style-type: none"> <li>•Appointment of Bio-Safety officer at each venue to ensure COVID-19 restrictions are complied with ensuring groups quickly vacate the court on completion of a game, ensure a team cannot enter the court until it is vacant</li> <li>•Participants and officials cannot enter the court area earlier than the designated time</li> <li>•20 minute gap between sessions</li> <li>•Separation of the entry and exit</li> </ul>	<p>The Biosafety office to record entry and exit of participants in a register which records the Name, Address, phone number and email address of participants.</p>	
<p><b>Boxing Queensland</b></p>	<p>Non contact activity in Gyms occurring in accordance with guidelines published. <b>Sport return Stage 3 or later</b> as sport requires Doctors at each event and not possible during restrictions.</p>		<p>Spectators / parents are not allowed to interact with any student including their own child / sibling</p>				
<p><b>Queensland Darts</b></p>	<p>Venues vary in size from 100m2 to 2000m2 - Darts operates in commercial venues and stand alone venues - venues working in partnership with the Owners have taken on separation of areas and closing communal spaces where gatherings are likely to occur, complying with covid safe business and supplied sport checklists - <b>Stage 2</b> Darts as a non contact sport, type of activity is unrestricted - some venues will be able to accommodate more than one zone of 20 persons - large centres. Majority would need to maintain numbers at 20 due to size of venue to maintain social distancing. <b>Distance gaps (one vacant board, increased playing areas ) or barriers (room separators) separating each group.</b> - separate entry and exit points for each group would need to be arranged for each venue. <b>Stage 2 would only be available for stand alone venues, no bar services at all. Stage 3</b> x100 per group for Competition, venues will need to ensure board spacing, increased playing areas and additional removal of tables and seating behind each board with a 3 metre spacing between tables and limited chairs. Venues are at times used for other functions and would need to comply overall to numbers to each area as required.</p>	<p><b>Stage 2</b> -20 Max- covid safe plan in place for all clubs and approved by governing body. All Committee members having completed Education and training. Barriers or separation of distance (one board vacant) giving a distance of 3 metres between boards plus essential persons. Spectators, Coaches, Carers and parents are all included in the head count for each group. 1 parent for each child will be counted as required as will be 1 carer for each person with a disability in stage 2 and 3 as these persons will be in the playing area and concourse. <b>Parents / Carers / Coaches:</b> Parents, carers and coaches all counted same as spectators. Stage 2 will only be available to stand alone venues. Stage 3 overall head count to include Coaches/Parents/Carers and staff.</p>	<p>Each venue will complete a register all persons coming into the facility - including essential support persons and participants, log provides for contact name and number as well as date of attendance.</p>	<p>Darts Queensland has a Covid safe plan for our sport available in readiness for Stage 2 and Stage 3 compliance and distributed amongst venues, associations, committees and members.</p>			
<p><b>Gymnastics Queensland</b></p>	<p><b>Management of spaces</b> by utilising floor markings etc Playing space - Varies from 700m2 up to 1800m2. The floor plan attached is for a relatively small gymnastics club &amp; shows the flow of people through the venue . Majority of clubs are over 900sqm &amp; have more entries and exit points - <b>Each zone will be separated by physical barriers</b> such as bollards &amp; rope and/or spotting boxes (large heavy boxes), each piece of equipment/activity station in each zone is positioned at least 1.5m apart, large sprung floor divided into zones, limited number of gymnasts and coaches per zone, floor markings to indicate 1.5m in each zone including the waiting areas and bathrooms. One person per bathroom at one time (only used if required)</p>	<p>Participants <b>Per zone Stage 2</b> - The minimum for the smallest venues would be - 60 persons - Waiting/Viewing Area - Parents - 10 (80sqm), Sprung floor zone - 10 (144m2), Beams Zone - 10 (115m2), Vault &amp; Tumbling Zone - 10 (144m2), Parallel Bars, Rings &amp; Pommel Zone - 10 (108sqm), Men &amp; Wmn High Bar Zone - 10 (99m2) Other venues would allow a minimum density of 4m2 per person per zone. <b>Stage 3</b> - The minimum for the smallest venues would be 120 - Waiting/Viewing Area - Parents - 20 (80sqm), Sprung floor zone - 30 (144m2), Beams Zone - 30 (115m2), Vault &amp; Tumbling Zone - 20 (144m2), Parallel Bars, Rings &amp; Pommel Zone - 10 (108sqm), Men &amp; Wmn High Bar Zone - 10 (99m2) . Other venues would allow a minimum density of 4m2 per person per zone. Staff running the venue would be outside of the numbers quoted above.</p>	<p><b>Waiting areas for parents &amp; gymnasts</b> located outside of the gymnastics training area with physical barriers such as a fence/gate/door/wall or bollards &amp; rope. Access to training zones restricted to gymnasts and coaches only. Coaches call for &amp; then escort gymnasts to their floor marking on the sprung floor to prepare for the class to start. Coaches to ensure 1.5m is kept in waiting areas, 1 per bathroom to eliminate overlap (change rooms/showers closed). Coaches &amp; Staff oversee the training area and zones to eliminate group overlap &amp; ensure appropriate cleaning is completed between groups &amp; sessions. <b>Designated &amp; separate exit and entry points</b> into &amp; out of venue to eliminate overlap. Coaches to keep their group 1.5m apart at all times. Coach to ensure each gymnast stays in their group. One parent per participant.</p>	<p><b>All clubs to follow the Club Surface &amp; equipment cleaning guidelines</b> developed by Gymnastics Australia's Chief Medical Officer – Dr Kath Yu - <a href="https://www.gymnastics.org.au/uploads/efiles/Club_Surface_and_Equipment_Cleaning_Guidelines.pdf">https://www.gymnastics.org.au/uploads/efiles/Club_Surface_and_Equipment_Cleaning_Guidelines.pdf</a> .These detailed guidelines outline how to clean different surfaces and equipment including cleaning frequencies and what to do following a suspected or confirmed case of COVID-19. It is imperative that the athlete/coach sanitises the relevant body part that comes into contact with the apparatus both before and after using the apparatus. -Open windows and doors to assist with air circulation within the club.Foam pits should be closed. If necessary for safety <b>foam pits should be covered with a tarpaulin (or something similar) and then a 10cm PVC mat placed on top of this tarpaulin for the gymnast to land on, to minimise foam and microscopic particles flying around. Remove foam cubes &amp; disinfect the vinyl base &amp; pit padding prior to use. After each turn clean the PVC mats &amp; tarpaulin with disinfectant. Damp mop with disinfectant on all surfaces &amp; wipe down any high touch points with disinfectant.</b> Small handheld equipment not to be shared. Sanitise hands before and after using equipment/apparatus. Signage placed inside &amp; outside of the gym. Each gymnast to provide their own chalk bag &amp; chalk. No sharing of chalk under any circumstances or the use of communal chalk bins. Chalk</p>	<p><b>As per the floorplan</b> a gymnastics club is divided into zones with physical barriers. <b>A separate entry and exit point will be established for each zone</b> and the venue and the coach will ensure the schedule of movement between zones eliminates overlap. <b>Club venues can have multiple entry and exit points due to fire safety requirements.</b> See floorplan for flow of groups through venue Classes/training is staggered with allocated time periods for each group in each zone. This means groups will move from one zone to the next at different times and enter and exit at different times to avoid 'choke' points &amp; gathering. This eliminates overlap &amp; is coordinated by a detailed schedule that the coach/staff control. When moving from one zone to the next there are allocated sections which people walk through to ensure safety of everyone. These "walkways" ensure 1.5m distancing. Equipment &amp; apparatuses in the club will be moved to ensure at least 1.5m distance between them. Parents of older children asked to wait in cars or outside of the venue 1.5m apart.</p>	<p><b>All gymnasts who participate are members of the affiliated club &amp; are pre-booked into classes</b> (either online or via phone). When a gymnast arrives their attendance is recorded on an iPad or paper, information captured includes date, time arrived, group, how they feel. When the class is finished a finish time is added. These records are then kept in the club. The coach to ensure all gymnasts are signed in and out. Class/ training group composition should remain the same each week/session (ie the same gymnasts should be grouped together each week/session and be coached by the same coach each week/session)</p>	<p>Any activity within a class/training which could have physical contact occur such as spotting will not be allowed in stage 2. No gymnastics competitions in QLD will be held until at least October. Gymnastics classes are delivered by paid &amp; educated coaches who are trained on safety. Strict measures are always in place at clubs to ensure safety of participants as injuries can occur. 95% of gymnasts are children. Only one group of athletes to be at the apparatus at one time. No sharing of personal equipment, Any pre /post training should be completed at home. Each club should develop a process on how to quickly notify health authorities, participants/athletes/parents/carers and Gymnastics Queensland of issues or a suspected COVID-19 case and ensure all staff and coaches know this process.provide optional PPE for staff members i.e. disposable gloves and masks. Vulnerable groups including those who are immunocompromised or have current medical conditions, including respiratory conditions, should strongly consider whether they attend training or classes. Guidelines including detailed cleaning procedures have been developed in conjunction with Dr Kath Yu - Chief Medical Of Gymnastics Australia. Place signage or display on screens in and outside of your club to remind visitors to not enter your club if they are unwell or have COVID-19 symptoms. GQ staff and technical members will monitor the implementation of all social distancing and hygiene</p>
<p><b>Handball Queensland</b></p>	<p><b>Stage 3 return to Play planned</b></p>						

<b>Ice Skating Queensland</b>	Acacia Ridge 1560m2 14 Skaters @ 110m2 / skater Boondall 1800m2 14 Skaters @ 120m2 / skater 6 coaches will have access to the facilities with no access granted to the ice surface. They will be assigned a position on the barrier in the rink for them to conduct their coaching.	<b>Stage 2 - Stage 3</b> 20 50 20 50	<b>Stage 2:</b> access has been restricted to skaters who are able to manage their own affairs. Parents will not have access to the rink and will drop skaters off and vacate the facility fully. <b>Stage 3:</b> Skater and coach number will be increase to 50 not the 100 allowed. Parents will be granted access to the facility up to the allowed 100 and will be assigned seating for the duration of their child's session. They will vacate the premises immediately upon completion of the session	<b>Skaters will not have access to shared equipment.</b> Session have been restricted to comply with social distancing rules. Sanitising stations will be strategically placed along with advertising material promoting good hygiene practices. The processes adopted for stage 2 will be monitored and improved as required for stage 3.	<b>All sessions have been scheduled with a 30 minute time break between sessions. Participants will arrive through one entry and exit via another.</b>	<b>All skaters will register via an online booking system.</b> Only skaters who have booked in for the session will be granted access. This list will be printed and a roll call completed prior to access to the rink being granted. No name on the list no skate.	
<b>Queensland Judo</b>	Judo Training Spaces will be configured (marked out) to maintain physical distance.  Spectators will be segregated from players and also be required to maintain mandatory physical distance.	Maximum 20 participants including parents, support or coach staff.	Parents/Carers/Spectators may only be present during Stage 2 if the total number of participants does not exceed the maximum permissible under the COVID Safe Plan.	<ul style="list-style-type: none"> <li>•Hand sanitisers required at entry and exit and during breaks.</li> <li>•Areas where people may gather, or lines may occur will be marked clearly to encourage participants to follow Social Distancing - 1.5m spacing.</li> <li>•Participants encouraged to bring to and use a personal towel and drink bottle during games to minimise bodily fluids on the mats and reduce the amount of person-to-person transfer of bodily fluids.</li> <li>•All transactions to be cash free</li> <li>•Non-Essential services - changerooms, referee rooms, canteens, public water fountains, general seating areas must remain closed or roped off to the general public in accordance with the relevant reactivation level.</li> </ul>	<ul style="list-style-type: none"> <li>•Appointment of Bio-Safety officer at each venue to ensure COVID-19 restrictions are complied with ensuring groups quickly vacate the court on completion of training</li> <li>•15 to 20 minute gap between sessions</li> <li>•Separation of the entry and exit of groups in the case of multiple sessions</li> </ul>	The Biosafety office to record entry and exit of participants in a register which records the Name, Address, phone number and email address of participants.	
<b>Queensland Squash</b>	Minimum size: 6.4m x 9.75m = 62.4m2 <b>Stage 2:</b> 20 capacity Max 4 ppl per zone (court) - normally only 2 ppl <b>Stage 3</b> 3 Max 6 ppl per zone (court) Minimal To be counted with Total of 100 Each playing space separated by solid walls (either block or glass)	Stage 2 and Stage 3- 2 people in each zone Max 6 separated by walls	Spectators - minimal Spectators counted in the limit of 20 in stage 2 and in the 100 in Stage 3	Players use personal equipment	Each court has separate entry point and numbers do not present problems keeping distance on entry or exit		
<b>Queensland Badminton</b>	"Playing zone" is 81.801sqm (ie. a court)  Venue sizes vary but are often 3, 4, 8, or 10 courts.	<b>Stage 2:</b> 20 in total at a venue. <b>Stage 3:</b> Depends on what is permitted by the restrictions. Most clubs are around 40-50 members.  <b>Stage 2:</b> Minimum people sitting "off court", ie. 12 people on court, 8 off court (if doubles is permitted, else 6 on and 14 off).  <b>Both Stages:</b> 4 players per zone (if doubles is permitted, else 2 players per zone). Minimal number of organisers (around 2 for the venue), will mean 18 players. No access to changing rooms, water stations, offices etc	Any spectators, parents etc which be taken out of the number allowed by the restrictions in effect at the time.  Generally spectators etc will not be allowed (there's no need for them to be there)	Difficult to determine exact measure required as schools and other council facilities may provide cleaning services (mute point if schools are not hiring to third parties).  <b>Everything will be cleaned as per the recommended guidelines.</b>  <b>People will bring their own water and equipment.</b> Only "shared" equipment is the shuttle which will be limited to a single court (ie. zone) and disposed of when finished.	<b>Will have separate entry and exit points to the venue.</b>  Generally zone (ie. courts) are separated enough and players won't be allowed to "wander about" the venue.  Do not foresee any bottlenecks.  <b>Staggered times won't not be needed but can be easily catered for.</b>	<b>Only members will be allowed to participated (in all Stages).</b>  Online booking system will be used (some clubs may do phone or email bookings). No "walk ins" will be allowed.  Attendance sheets will record time in/time out.	We really need to know if doubles play is permitted in Stage 2. If no then we predict only a handful of clubs will run.  Also, if school halls continue to be unavailable throughout Stage 2 (and possible Stage 3) then 95% of our clubs can not open. This will have a massive ongoing effect going forward into 2021.  If our largest club can not operate in Stage 2 (ie. the 10 court venue) then it is likely they will fold. This will cause the sport to lose two thirds of their membership. Other clubs will not be able to pick up the lost members as they were already at capacity, will have to cater for their own existing members and may not even be able to run in Stage 2 or Stage 3 due to a lack of school halls being available.
<b>Queensland Billiards and Snooker</b>	Indoor Sport Industry plan received - assumed return to sport at Stage 3. Volunteer unable to input at the time of this submission.						

<b>Qld Fencing</b>	Venue sizes vary from 58m2 to 700m2. Floor spacing will be marked by tape on the floor; seating will be removed; bollards may be used to create barriers by one club. Many of our clubs have no control over communal spaces or shared facilities such as toilets, change rooms, or waiting areas.	Only those clubs offering non-contact fitness and footwork can resume in Stage 2 subject to approval by NSO. This will be a maximum of 20 (including the coach)	Stage no spectators are allowed; Stage 3 we advise clubs to discourage spectators at training but if they must be there then max 1 parent per child (this will reduce the number of participants allowable in the activity by the number of spectators present); no spectators will be allowed at any competition when they resume for the foreseeable future; when they are allowed back they will be seated in designated areas away from the competition space at 1.5m apart.	Suspension of handshake rule; no shared equipment; all masks, gloves, bodywires, groin and breast plates and weapons must be disinfected prior to and after use; uniforms must be freshly laundered; fencing bags must remain well away from training space and are required to be sprayed with disinfectant every session; sanitising stations will be implemented; no shared drinking or food sources allowed; minimum 1.5 m must be maintained between participants at all times; all scoring equipment must be disinfected after use; coaches will be responsible for ensuring strict infection control and hygiene procedures are maintained in their clubs. Cashless or non-contact payment systems to be implemented in all clubs. No canteen facilities to be offered at any fencing event or training. Anyone showing any symptoms of the virus are not to attend (even if it just turns out to be a head cold it is better to err on the side of caution).	Clubs have designated entry and exit points. Clubs with only one access door will be required to implement an entry/exit process that maintains 1.5m between people at all times. Clubs who offer multiple sessions will be required to have a minimum 1/2hr spacing between sessions in order to fully clean the area and equipment and allow participants to enter or leave without mixing groups.	All clubs are required to document every person who enters their venue - name, age, time in/out, phone number, email. Sheets have already been distributed to all clubs.	Competition space in fencing is vastly different to a training space - an area of 21m x 5m is required for each piste competition area (usually 6 - 9 pistes are used in competitions). Only the fencers in a bout and the match referee will be allowed in this space during a competition. Podium ceremonies will no longer take place. DT and medical will be limited to one resource only. No entry to these spaces unless specifically required. Immunocompromised fencers should reconsider whether it is in their own health interests to compete and this decision should be made with relevant medical consultation. Any person who has been overseas in the past 14 days, is waiting for test results, is subject to self-isolation conditions or any other measure deemed necessary by the relevant government or medical authority is not allowed at the venue
<b>Queensland Ice Racing</b>	Planning to return Stage 3 However earlier return to Sport is dependant on Ice Rinks operating and if returning Stage 2 will operate 20 or less.	Stage 2, a maximum total of 20 persons. Stage 3 a maximum total of 40 persons	Only skaters able to manage their own equipment and fitment permitted. Parents to drop skaters at the car park and vacate the facility. Parents will not be allowed access to the rink.	Saters Must provide their own equipment, no equipment sharing is permitted. After each session all clothing must be laundered, all personal equipment sanitized. Barrier impact mats to be sanitized after completion of each training session. Sanitizing stations and hygiene advisory material will be strategically placed.	There will be a scheduled 30 minute break between rink sessions. Participants will have separated arrival and departure pathways.	All participants to give prior notification to their club secretary of their intention to attend. A full list of attendees will be maintained. No spectators or visitors will be permitted.	
<b>Queensland Indoor Bowls</b>	Smaller Clubs will be operating in Stage 2 with 20 or less participants following recommendations from SSO, However most Associations/Clubs will be returning in Stage 3 or later.						
<b>Queensland Weightlifting</b>	Size of sport area varies venue to venue. This will govern the maximum number of participants they can accommodate. Communal areas of showers and water fountains to be cordoned off and marked "closed". No presentation of athletes ceremony at commencement of competition sessions. Medal presentation ceremonies to only include the 3 place getters and social distant podium markers. EG 3 separate weight discs. All elements of this matrix continuing into Stage 3	Stage 2 - 20 persons maximum - where space allows for the 4m x 4m requirement. Stage 3 - resumption of competition. Separate competition, spectator and warm-up areas. All being spaced for social distancing and 4m x 4m requirement. Maximum of 100 people. Spectator numbers monitored by limiting seating availability.	Essential persons limited to coaches - typically maximum of 2 in a weightlifting club. Social distancing between coach and athlete designated by platform area. 1 parent per athlete where necessary to be included in total numbers of 20 and to be kept socially distant from other gym users. Stage 3 - competition practices made COVID Safe. Marking of waiting area for weigh-in - 1.5m increments. Marshall table - 1 coach only at a time and provide own pen. Area in front of scoreboard marked at 1.5m intervals for easy reference by attending coaches; marking of 1.5m on benches/distancing of single chairs in competition platform waiting area.	Prominent display of COVID Safe poster at entry point/points, along with supply of hand sanitiser, Education prior to return to training on cleaning requirements and methods, including the adoption of: "Get in, Train, and get out". 1 person per platform unless shared with member of household; taking into account maximum of 20 people in an indoor facility. Each platform to have it's own designated set of equipment - bar and weights, squat racks, cleaning equipment. NO sharing of equipment between platforms. Athletes will be required to clean the equipment on their platform at the end of their training session. Single seating for athlete use in the training venue to be socially distanced from fellow members. Athletes will be required to bring their own drink bottles and additional supplies of water. Water fountains or ice machines NOT to be in use. Sauna's and plunge pools NOT to be used. Cordon off and display a sign to this effect. NO shared chalk bowls. Athletes to manage their own supplies for training and competition.	Designated training times introduced and strictly adhered to. Where possible different entry & exit points are used - Where shared entry/exit point - floor to be marked to show direction of foot traffic 1.5m social distancing floor markings leading to entry points - Stage 2 - existing members only. NO walk-ins - Stage 3 - new members can be allowed in the training environment as this fits in with club scheduling. Stage 3 Competitions - scheduling of weigh-ins and sessions to eliminate overlap of sessions, and allow for cleaning between sessions.	Individuals name & contact no. - platform number, length of time of visit, captured. Sign in/out sheets to be entered and kept by coach. This will assist in ensuring maximum numbers are not exceeded and remove the need for sharing items if individuals were required to sign in. Encourage all members to have COVID Safe app active on their phones.	
<b>Skate Queensland</b>	Play area as per floorplan in Indoor Sport Covid Plan submitted - venues have varied size play areas.	Skate is a non contact sport - 20 people or less in Stage 2 - contact list of persons available on request - social distancing markers - cones provided when standing still.	All training to comply with social distancing.	Venue has sanitisers available on site. Club to also provide sanitisers and anti-bacterial wipes as required - members advised to wash hands frequently, cough into elbow. All equipment sound system/ipad and any communicational tools wiped down. Members showing signs of flu systems asked to leave immediately. no sharing of water bottles, food or any items between sessions	Schedules of times skaters are able to be at the venue to ensure we meet number requirements	Names of skaters available on request. Details captured in booking schedules.	

<b>Sport Climbing Queensland</b>	<p>Sport Climbing Queensland only runs events. Currently, SCQ does not think it is viable to run an event in the near future. This is because we require apx. 120 competitors to break even on events, and neither Phase 2 or 3 would allow this.</p>		<p>When events are to be held again, limitations on spectators will be considered in line with health directions and restrictions at that time in particular social distancing requirements.</p>	<p>1) Liquid Chalk - If SCQ were to run an event, all competitors would be required to use liquid chalk prior to each attempt at the climb. Liquid Chalk would be required to be, at a minimum, 60% alcohol, thereby acting as a sanitiser. There is currently research occurring in Victoria on the effect of Liquid Chalk on Coronavirus. SCQ would ask competitors to provide their own liquid chalk where possible, however we would also source a large enough amount (either through sponsorship or purchase) to cover competitors who can't provide their own.</p> <p>2) Climbing Holds - The climbing holds for a competition are placed by professional routesetters in the days prior to a competition. SCQ would ensure that all routesetters use adequate PPE (masks, gloves, hand sanitiser) in the lead up to the events. It's not viable for holds to be washed between climbing attempts, however we believe that with the use of liquid chalk, this risk is minimised.</p> <p>Any competitors who feel unwell or refuse to meet these measures would of course not be allowed to compete. I'd also like to add that currently, SCQ does not think it is viable to run an event in the near future. This is because we require apx. 120 competitors to break even on events, and neither Phase 2 or 3 would allow this.</p>			
<b>Table Tennis Queensland</b>	<p><b>Playing space:</b> Court size 12m x 6m No doubles given social distancing. Venues vary from 5 tables to 20 tables. But we will be recommending just 20 max per entire venue for stage 2</p>	<p><b>Stage 2:</b> 20 max per entire venue <b>Stage 3:</b> 100 max per entire venue</p>	<p><b>Recommending 1 parent per child.</b> Drop-off/pick-up recommended where possible to limit people in venue</p>	<p>Tables &amp; balls to be cleaned after each match No sharing of towels etc Chairs in venue to be spaced apart to ensure social distancing</p>	<p>Recommending 15 minutes between session to clean and to ensure registers for each session are 100% accurate</p>	<p>Name, session attending, venue manager/coach to manage this depending on clubs. Registers to be filed and keep on record.</p>	
<b>Tenpin Bowling Queensland</b>	<p><b>Venues vary in size</b> from 1000m<sup>2</sup> to 4000m<sup>2</sup> - Tenpin operates in commercial venues - venues working in partnership with the SSO have taken on separation of areas and closing communal spaces where gatherings are likely to occur, complying with covid safe business and supplied sport checklists - <b>Stage 2</b> Tenpin as a non contact sport, type of activity is unrestricted - some venues will be able to accommodate more than one zone of 20 persons - large centres ( 20 - 24 lanes) having 3 zones 20x20x20 other centres (8 - 18 lanes)one or two 20x20 zones also determined on venue floor plan and effective separation of zones to maintain social distancing. Sport using timelines available within the commercial booking arrangements. <b>Distance gaps or barriers (room separators) separating each group.</b> - separate entry and exit points for each group easily managed as the layout of all tenpin centres are linear. <b>Stage 3</b> x100 per group for Competition large centres will be able to accommodate 2 zones of 100 - and other centres operating 1 zone. <b>Tenpins sports services to schools</b> will resume when school term bookings resume according to Dept of Education guidelines.</p>	<p><b>Stage 2 and 3:</b> Essential commercial venue Staff not to be counted- Mechanics to drive machinery and Centre staff to man Hygiene and Record keeping stations on behalf of the business and the sport will not be counted. <b>Stage 2</b> - 20 x 20 x 20 large venues plus essential persons. Medium venues 20 x 20 plus essential staff. Spectators, Coaches, Carers and parents are all included in the head count for each group.1 parent for each child will be counted as required as will be 1 carer for each person with a disability in stage 2 and 3 as these persons will be in the playing area and concourse. <b>Parents / Carers / Coaches:</b> Parents, carers and coaches all counted same as spectators. <b>School services activity:</b> No in school sport services activity included Stage 2 - <b>Stage 3</b> we are awaiting Dept of Education instructions.</p>	<p><b>Staff, coaches and all participants maintain 1.5 metres distance</b> at all times. Seating and tables arranged to separate persons. Staff will work with coaches and officials of the sport to ensure distance is observed when sport activity is planned. All persons to be briefed on distance and hygiene measures on entry to the venue. <b>Concourse and player area</b> seating spaced to comply with distancing requirements. Places where gatherings are likely to occur to be closed or barriers placed to close the area. No standing around close to other participants during or in between any activity in play area (e.g. when waiting in line) - <b>30 minutes min. between each scheduled group activity time</b> to allow for cleaning and sanitising each area. Staggered schedule of play illustrated in main document will require 45 min. between groups. In Tenpin and Indoor sport Covid plan - Floorplan 2 showing other areas operating at the same time as NFP sport – head count applies for each zone separated by walls in the venue with social distancing and all health regulations applying for each zone. Open entertainment areas to abide by current regulations – if not separated to sport activity play area, counted in the head count of the sport area. All centres have entry at one end of the venue and exits at the other – entry and exits to zones directly behind each group of lanes separated by room dividers or simple vacant lanes between groups. Schedules of Play staggered to avoid</p>	<p><b>Training on COVID-19 infection control</b> to staff and volunteers responsible for the conduct of training, event operations or any other relevant activity. Conducted by the Manager or Bio-hazard officer in charge of each shift at the venue. <b>Participants briefed</b> of appropriate hygiene measures and that they should not attend if unwell. <b>Government resources prominently displayed</b> around venue and at entry points, including handwashing and personal infection control advice.Sanitising requirements, including use of sanitising stations prominent. <b>Sharing of some equipment is permitted</b> (e.g. sanitise equipment before, during, after sessions) and use of such equipment to be limited. House balls issued to players as they enter the facility sanitised and put on turntable - sanitised when group leaves the lanes ready for the next user. Bowlers asked to leave house balls on turntable after use. House shoes sanitised prior to and after each use - Personal hygiene encouraged (e.g. wash hands prior to and after activities).</p>	<p>Venue entry -<b>Separate entry and exit</b> points will be signed clearly and where there are more than one group attending at the same time the schedule of activity sessions staggered so gatherings outside the venue can be avoided</p>	<p><b>Some venues have utilised QR codes</b> to register all persons coming into the facility - this system used to identify all persons at the venue including essential support persons and participants - All venues take details via bookings with contact details attained at the time of booking and schedules of sessions available advertised prior. Each group exiting when allocated time has expired. Each group exit time registered by staff when leaving the venue</p>	<p>Tenpin Bowling has a Covid safe plan for our sport available in readiness for Stage 2 and Stage 3 compliance and distributed amongst venues, associations, committees and members.</p>
<b>Volleyball</b>	<p><b>Volleyball court is 18m*9m with minimum free zones of 3m is 360 sqm.</b> Volleyball courts in sports halls, outdoor centres or on beach will have a minimum distance between courts of 8 metres or have a dividing net. Dependent on the venue, the netting or spacing can be parallel to sidelines, endlines or both. <b>Substitute player benches will be removed</b> from the side of the court to facilitate participant spacing and minimise cleaning between matches. <b>Communal spaces (changerooms etc) and facilities (bubblers) will be closed with only bathrooms available for use.</b></p>	<p><b>Training in stage 2 and 3</b> - 17 participants comprising 14 players with 3 coaches, a participant density is 21 sqm pp in a court of 18m*9m court with minimum free zones of 3m i.e. 360 sqm. <b>Playing in stage 3</b> - 31 participants if maximum players (24), coaches (4) &amp; officials (3) are involved, a participant density of 11.6 sqm pp based on an 18m*9m court with minimum free zones of 3m i.e. 360 sqm. This is the maximum density as in most cases fewer substitute players are selected.</p>	<p>Spectators and parents/carers of juniors will be discouraged with 'drop and go' to be used. Volleyball spectators do not sit within the playing area and free space area. If the wider venue has space away from the court area for parents/carers to be located such as a mezzanine with its own entrance/exit with appropriate spacing conditional on contact details to be provided, <b>this will be managed by the volleyball biosecurity personnel</b> within approved total sport numbers and collected using <i>Volleyball 'Return to play COVID-19 Safe Plan' Attendance Register Template.</i></p>	<p>Between each session cleaning of fixed equipment such as the net tapes, referee stand and scorer's table and replacement of useable equipment such as swapping in cleaned volleyballs for the next match or session as stipulated in <i>Volleyball 'Return to play COVID-19 Safe Plan'</i>.</p>	<p>Player location, spacing &amp; movement will be controlled to prevent congregation, via directional 'one way' venue flow plans, if a venue has multiple entry/exits these will be utilised, start times will have a 20 minute differential 'per court' to eliminate congestion at entrance/exit points and allow for cleaning</p>	<p>For Training details of each participant recorded by the team coach using <i>Volleyball 'Return to play COVID-19 Safe Plan' Attendance Register Template.</i> For Play this will be managed by the volleyball biosecurity personnel and collected using <i>Volleyball 'Return to play COVID-19 Safe Plan' Attendance Register Template.</i></p>	<p>Volleyball Queensland has drafted a '<i>Return to play COVID-19 Safe Plan</i>' for the sport in accord with Queensland Government health requirements with guidance from Volleyball Australia &amp; Australian Institute of Sport/Sport AUS documentation.</p>
